SOURCE METHOD EXEMPTION 3B2B  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2007

3. Support Functions

Our support functions consist of providing [ ] 7th F/W material, the distribution of clothing for PEP and the provision of secretarial assistance for [ ]

4. Operational activity

a. Operational activities implemented or acted upon:

(1) Apple/2. We have remained in contact with this team throughout this period. Our traffic has been primarily concerned with plans for the team's exfiltration. A successful resupply drop was flown to Apple/2 on 19 September. We continue to handle the team as possibly controlled.

(2) Fig Team. We have been in W/T contact with this team since its infiltration on 7 September. Traffic has been primarily devoted to intelligence reporting.

(3) A token container

(3) A token container without further instructions was delivered to AILION's island in the Drin River on the night of 19 September. Four reception fires were lighted per instructions delivered there a month earlier. Our efforts to contact Zef Shllaku to determine his usefulness to us in pursuing this operation have so far been in vain. [redacted] flew to Salzburg on 12 October to attempt inducing Shllaku out of the British Zone of Austria with the assistance of AICHAP.

b. CE activities

None other than the usual efforts to detect agents in the course of refugee interrogations.

c. Future operations in planning stage - recruitment and training program

(1) We plan the delivery of supplies to the AILION island with a note containing further instructions.

(2) There is a possibility that Throttler may be mounted by sea for a very short term operation.

GASH -

(3)/ No change from last months report.

(4) AINICE - no change from last months report

(5) GADUNCE - no change from last months report

(6) W/T trainees - no change from last months report

d. Inactive operations

Formation of Willow Tree Team plans await development of Fig operation.

e. Terminated operations

None.

f. Conclusions

(1) Our prime concern at this time is the successful exfiltration of Apple/2. We are pleased with Fig's performance to date but have no indication as yet as to how long this team will be able to remain in its operational area.

(2) The establishment of a Commo link with [redacted] on 1 October is an extremely useful addition to local OBOPUS facilities.

(3) Developments in the AILION affair are expected should Zef Shllaku succeed in making his way to Salzburg.
